12th Interdisciplinary Endoscopic Skull Base Surgery Course

Course directors:
Prof. Dr. S. Lang
Prof. Dr. S. Mattheis

September 20 - 21, 2023

Venue: University Hospital Essen,
Institute of Anatomy Institutsgruppe I (IG-I),
Virchowstr. 171, 45147 Essen

In cooperation with the Institute of Anatomy
at the University Hospital Essen
Prof. Dr. med. Gunther Wennemuth

Dear Colleagues!

It is our pleasure to announce the 12th Interdisciplinary Endoscopic Skull Base Surgery Course.

Skull base surgery underwent significant changes during the last decades. The increasing advancements in the fields of neurosurgery and otorhinolaryngology have challenged surgeons from both specialties to keep up with the rapid technological progress such as operations based on 4K or 3D endoscopy and robotic-assisted skull base surgery.

The skull base represents the interface of an intense interdisciplinary collaboration between otorhinolaryngology and neurosurgery. Therefore, this course focuses on the complex anatomy of the skull base and adjacent anatomical structures, i.e. sinuses and orbit, as well as surgical treatment strategies for lesions in this challenging area.

Being the highlight of this course, participants will spend 15 hours of hands-on training on cadavers. An excellent international faculty from Barcelona, Erfurt, Graz, Nottingham, Padua, Brescia and Essen will provide an intensive step-by-step teaching. Additionally, an outstanding technical support including real time navigation for all specimens, HD 3D visualization, 4K endoscopy, robotic systems as well as high speed drills will be available.

We are looking forward to welcoming you to the 12th Interdisciplinary Endoscopic Skull Base Surgery Course in Essen!

Yours sincerely

Prof. Dr. Stephan Lang

Prof. Dr. Stefan Mattheis

Wednesday, September 20, 2023

8:00 Registration

8:15 Welcome

8:30 **Skull base anatomy**

9:00 Coffee break

Transition to preparation rooms

9:15 **Introduction to work stations**

Dissection

9:15 **Introduction 4-hand-technique**

9:45 **Sphenopalatine artery**

10:30 **Uncinate frontal sinus / Infundibulotomy**

11:15 **Ethmoidectomy**

12:00 Lunch break

Dissection

13:00 **Frontal sinus surgery Draf procedures**

14:30 **Transcribiform approach**

Wednesday, September 20, 2023

15:30 Coffee break

Dissection

16:00 **Endoscopic orbital surgery**

Dakryocystorhinostomy

Balanced orbital decompression

Intraconal dissection

Transorbital surgery

Dissection

17:00 **Medial maxillectomy**

Prelacrimal approach

Midfacial degloving

18:00 **End of first day**

19:00 **Social evening**

Thursday, September 21, 2023

8:15 Registration

Dissection

8:30 **Transmaxillary Surgery**

Pterygopalatine fossa

Infratemporal fossa

Dissection

10:30 **Transsphenoidal approach /TESPA**

11:30 **Complications and their avoidance in skull base surgery**

12:30 Lunch break

Dissection

13:30 **Surgery of the cavernous sinus**

15:00 **Infrasellar and transclival approach**

16:00 Coffee break

Dissection

16:30 **CSF leakage and skull base reconstruction**

Certificate and Adjourn
